

NJ has a "do not call list" law that works just fine and accomplishes exactly what it is supposed to do; leave it alone. It's about time government did something right. Do not impose inferior federal standards on NJ and subject the populace to telephone trash. We don't need it, we don't want it and you are supposed to working for us; not the telemarketers. There is nothing the telemarketers provide that can't be had through other, less intrusive and less obnoxious methods.
